

ANNUAL

CONFERENCE & EXPO 2025

May 31 – June 3, 2025

Renaissance Atlanta Waverly Hotel & Convention Center
Cobb Galleria Centre | Atlanta, Georgia

#IISEAnnual2025

IISE Annual Conference & Expo 2025
Call for Abstracts and Presentation Summaries
Cobb Galleria Centre | Atlanta, Georgia
May 31-June 3, 2025

Track: Logistics & Supply Chain

Abstract Submission Link available on Conference Website: <https://www.iise.org/Annual/>

Dear Colleagues,

The **Logistics & Supply Chain Division** of the Institute of Industrial & Systems Engineers (IISE) is sponsoring the **Logistics and Supply Chain Track** at the IISE Annual Conference & Expo 2025. The conference is a forum for exchanging knowledge and discoveries in the industrial and systems engineering research and practitioner communities. The IISE Annual Conference & Expo 2025 will continue to integrate research and industry applications under one conference.

As track chairs of the Logistic & Supply Chain Track, we encourage you to contribute to the conference and track by submitting a 250-word abstract or presentation summary. Authors will be able to claim these works as refereed extended abstracts, which will be available on the conference website and can be cited. They will not be copyrighted or indexed in the official conference proceedings, and therefore there is no limitation on reusing this material for other purposes (e.g., toward the publication of journal papers or subsequent conference proceedings). Abstracts and presentation summaries are welcome in the following areas:

- Logistics Network Design and Optimization
- Logistics Network Simulation
- Inventory Optimization and Control
- Supply Chain Modeling and Simulation
- Supply Chain & Logistics Applications
- Transportation Systems
- Supply Chain Analysis and Design
- Green or Sustainable Supply Chain
- Logistics for Energy Production
- Procurement and Supplier Selection
- Demand Planning
- Information Sharing
- Coordination and Collaboration
- Offshoring and Reshoring
- Humanitarian Supply Chains
- Supply Chain Reliability and Resilience
- Service Supply Chains
- Reverse Logistics

Authors of accepted abstracts and presentation summaries will be invited to share their work in a conference session. Regular sessions will be 80 minutes and have up to four presentations. There will also be options where authors can elect to share their content in a “Poster Session”. In addition, **there are opportunities to organize and/or participate in Special Sessions (Panels, Workshops, etc.). If you are interested, please contact us by November 1, 2024.**

We strongly encourage all presenters to submit a paper for publication so discoveries can be permanently documented. This year, two types of papers will be considered: research papers and case study papers.

- ❑ **Research papers** (with a limit of six pages) contain methods and results that are *significant* and have *archival value* to the industrial and systems engineering community. They will undergo a double-blind peer review process and accepted papers will be copyrighted and indexed in the Conference Proceedings via ProQuest.
- ❑ **Case study papers** (of two to six pages) describe the application of a method or technology that addresses an *important industry-motivated issue*. They will be reviewed to ensure that the content focuses on the value and lessons learned for the industrial and systems engineering community. The case study papers should avoid significant marketing material. Accepted manuscripts will be published with access via the IISE website.

Important deadlines:

- Submission deadline for abstract/presentation summary: November 10, 2024
- Notification of decision on abstract/presentation summary: December 15, 2024
- Paper submission deadline: February 9, 2025
(*Paper submission is optional but encouraged.*)
- Notification on full paper decision: March 9, 2025
- Speaker registration deadline: March 23, 2025
- Paper final revision submission deadline: March 31, 2025

All presenters must register for the conference to avoid having their presentations/papers withdrawn from the program and the proceedings. The presenting author must attend and present the paper at the conference.

We look forward to seeing you in Atlanta!

Best Regards,

Logistic and Supply Chain Track Co-Chairs:

Erin Gerber, University of Louisville, (e.gerber@louisville.edu)

Yanchao Liu, Wayne State University, (yanchaoliu@wayne.edu)

Kaushik Narendran, Moderna, (kaushik.narendran@gmail.com)

Christine Nguyen, Northern Illinois University, (cnguyen@niu.edu)

Payam Parsa, California State Polytechnic University Pomona, (pparsa@cpp.edu)

Debjit Roy, Indian Institute of Management Ahmedabad, (debjit@iima.ac.in)

Yuehwern Yih, Purdue University, (yih@purdue.edu)
