A Sampling of Industrial & Systems Engineers in Industry

Current Members of the IIESE Industry Advisory Board

- **Sean Genovese**
  - Industrial Engineering Manager at Lockheed Martin
  - Creativity, Problem Solving, Process Improvement, Information Systems, Lean

- **Renee Thiesing**
  - VP Strategic Alliances at Simio
  - Simulation, Operations Research, Statistical Analysis, Process Improvement, Production & Inventory Control, Supply Chain & Distribution, Problem Solving

- **Katie Coperich**
  - Strategic Planning Manager at FedEx Ground
  - Project management, process improvement, Engineering economics, supply chain management, engineering management, product design and development

- **Mindy Holmes**
  - Risk Management Program Manager at Intel Corporation
A Sampling of Industrial & Systems Engineers in Industry
A Variety of Skills in Various Industries

Stephen Snelling
Retired, IE-Special Projects Manager at Boeing Commercial Airplanes
Project Management, Process Improvement, Lean & Six Sigma, Supply Chain, Facility Planning & Layout, Quality Control, Ergonomics & Safety, Problem Solving

Carl Kirpes
Crude Oil Strategist & Analysis at Marathon Petroleum
Systems Engineering, Engineering Management, Project Management, Engineering Economics, Supply Chain Management, Network Optimization, Forecasting, Continuous Improvement

Scott Sink
Senior Advisor, The Poirier Group
Enterprise Transformation, Strategic Performance Improvement Planning, Operational Analytics, Integrated LeanSigma, Operational Excellence Program Design and Deployment, Performance Measurement Systems

Bob Pudlo
VP Operations Support and Engineer at FedEx Ground
Facilities Engineering, Operations Engineering & Management, Process Improvement, Supply Chain Management, Engineering Economic Analysis
A Sampling of Industrial & Systems Engineers in Industry
A Variety of Skills in Various Industries

Kaz Takeda
Manager, Industrial Engineering at Disneyland Resort

Diana Berry
Supply Chain Specialist at Harsco Rail
Creative Problem Solving, Continuous Improvement, Logistics and Supply Chain Management, LeanSigma, Project Management, Quality Control.

Chief Technology Officer, Artificial Intelligence & Data Sciences
Artificial Intelligence, Data Sciences and ORMS, Robotic Process Automation, IoT, Logistics & Supply Chain, Manufacturing Operations, Work Design & Safety, Systems and Software Engineering, Quality

Dave Hampton
Retired, VP Go To Market, Frito-Lay, Inc
