A Sampling of

Industrial & Systems Engineers in Industry

Current Members of the IIESE Industry Advisory Board

Industrial Engineering Manager, Lockheed Martin

Creativity, Problem Solving, Process Improvement, Information Systems, Lean

Sean Genovese

VP Strategic Alliances, Simio

Simulation, Operations Research, Statistical Analysis, Process Improvement, Production & Inventory Control, Supply Chain & Distribution, Problem Solving

Renee Thiesing

Strategic Planning Manager, FedEx Ground

Project management, process improvement, Engineering economics, supply chain management, engineering management, product design and development

Katie Coperich

Risk Management Program Manager, Intel Corporation

Mindy Holmes
A Sampling of
Industrial & Systems Engineers in Industry
A Variety of Skills in Various Industries

Retired, IE-Special Projects Manager, Boeing Commercial Airplanes

Stephen Snelling

Project Management, Process Improvement, Lean & Six Sigma, Supply Chain, Facility Planning & Layout, Quality Control, Ergonomics & Safety, Problem Solving

Crude Oil Strategist & Analysis, Marathon Petroleum

Carl Kirpes

Systems Engineering, Engineering Management, Project Management, Engineering Economics, Supply Chain Management, Network Optimization, Forecasting, Continuous Improvement

Senior Advisor, The Poirier Group

Scott Sink

Enterprise Transformation, Strategic Performance Improvement Planning, Operational Analytics, Integrated LeanSigma, Operational Excellence Program Design and Deployment, Performance Measurement Systems

VP Operations Support and Engineer, FedEx Ground

Bob Pudlo

Facilities Engineering, Operations Engineering & Management, Process Improvement, Supply Chain Management, Engineering Economic Analysis
A Sampling of Industrial & Systems Engineers in Industry
A Variety of Skills in Various Industries

Manager, Industrial Engineering, Disneyland Resort
Kaz Takeda

Supply Chain Specialist, Harsco Rail
Diana Berry
Creative Problem Solving, Continuous Improvement, Logistics and Supply Chain Management, LeanSigma, Project Management, Quality Control.

Chief Technology Officer, Artificial Intelligence & Data Sciences, IBM
Ben Amaba
Artificial Intelligence, Data Sciences and ORMS, Robotic Process Automation, IoT, Logistics & Supply Chain, Manufacturing Operations, Work Design & Safety, Systems and Software Engineering, Quality

Retired, VP Go To Market, Frito-Lay, Inc
Dave Hampton
