Frequently Asked Questions

Why should I take part?
The IISE Member-Get-a-Member campaign is an opportunity for you and other chapter members to work together to earn money toward funding chapter events, as well as achieve personal recognition and advance the reach of IISE within your network.

How do I get started?
- Find recruiting tips and tools at the IISE Chapter Resource Center - check back often for campaign updates.
- Complete the online recruiting form (bit.ly/IISE-MGAM) with the names of your potential new members so we can track your progress for you.

When does the recruiting campaign close?
The formal campaign will end on March 31. Please ask your colleagues to join IISE before then so that they are included in the campaign results.

Who should I recruit?
Feel free to reach out to any colleagues and friends within the industry, including young professionals who may not yet be familiar with all that IISE has to offer them. They’ll be automatically assigned to your chapter at no extra cost upon joining IISE.

What are the incentives?
- Chapter Awards: There are three prizes for the top recruiting chapters. The first chapter to reach the goal of 25 new members will receive $1,000 to be used for chapter events. The second chapter to reach the goal will be awarded $500 and the third will receive $250. But don’t stop at 25 members - an additional $150 bonus will be awarded to the chapter that recruits the most professional members.
- Individual Recognition: In addition to chapter awards, individual recruiters will receive recognition on the IISE website and e-newsletters.

When will I know if my chapter won?
IISE will announce the top recruiting chapters in April.

How do I find additional information?
Please visit the IISE Chapter Resource Center for support, resources and frequent updates on the campaign’s progress. IISE will be recognizing recruiters and offering tips on an ongoing basis there.
