“IE for Life! Leading the IE Profession by Serving”

Kim LaScola Needy, Ph.D., P.E., CFPIM, PEM
University of Arkansas

Kim LaScola Needy has recently been named Dean, Graduate School and International Education at the University of Arkansas. Prior to this she served for six years as Head, Department of Industrial Engineering at the University of Arkansas. She received her B.S. and M.S. degrees in Industrial Engineering from the University of Pittsburgh, and her Ph.D. in Industrial Engineering from Wichita State University. Prior to her academic appointment, she gained industrial experience while working at PPG Industries and The Boeing Company. Her first faculty appointment was at the University of Pittsburgh. Dr. Needy’s research interests include engineering management, engineering economic analysis, sustainable engineering, and integrated resource management. She is Past-President of IIE as well as a member of ASEE, ASEM, APICS and SWE. She is a licensed P.E. in Kansas.
