Industrial Engineers

Region 16
Central & South America
IIE Javeriana Cali
#699

Vision
By 2018, being a consolidated chapter, with remarkable influence at Pontificia Universidad Javeriana Cali and Valle del Cauca. Being recognized for excellence in its activities and the profound human values of the members. Promoting national and international experiences that enrich chapter’s members personally and professionally, in addition to encouraging sense of belonging about Industrial Engineering within the group and within the university. Building and maintaining relationships with regional chapters.

Mission
Chapter #699 seeks to promote the integral development of its members, Industrial Engineering students from Pontificia Universidad Javeriana Cali, through a practical approach to the field of Industrial Engineering and experiences that strengthen leadership, knowledge, and human dimensions which entail to improve professional development.
Activities

Chapter #699 provides seminars and workshops to train its members on Industrial Engineering trending topics.

Yearly, Chapter #699 organizes one entire day of conferences related to Industrial Engineering topics. Conferences are dictated by enterprises’ managers that have an experience applying these topics to their company. The main objective of this activity is to convey the experience and knowledge of some industry leaders to Industrial Engineering students from Pontificia Universidad Javeriana Cali and the city.
In order to approach the practical field of Industrial Engineering outside the region (Valle del Cauca), Chapter #699 organizes plant tours and visits to cities with a strong industrial development. The first mission took place during one week in Medellín, one of the main cities in Colombia. The companies that were visited included multinationals and one SME recognized for its processes’ improvement in the past years. International missions are also being planned.
**Congresses:** Image: Central & South America Conference 2015

Yearly, Chapter #699 members attend IIE Central & South America Region Conference. In 2015 the chapter was the host institution and had the privilege to organize the conference, obtaining successful results and the participation of students and professionals from Honduras, Ecuador, El Salvador and Colombia.
Plant tours
Every semester Chapter #699 plans several tours at important factories around the city. The main purpose of the plant tours is identifying the application of theoretical concepts and improvement opportunities in different IE areas. Reports for the companies are delivered occasionally.
IIE Javeriana Cali is a solid and one of the most representative group of our university due to its dynamic participation. Guided by our vision, we are recognized by the quality in every activity we host and we organize, aiming always at providing an added value to Industrial Engineering students. The chapter always cares to offer experiences and knowledge that they can not obtain at university. We promote the team work, leadership management, engineering knowledge, personal growing and a huge diversity of other competences.
