

## **Alyssa Emerson Bio:**

Alyssa Emerson recently obtained her B.S. in Industrial Engineering (2019) from Cal Poly Pomona. During her time as an undergraduate, she was heavily involved with her department and college. She served as the Society of Women Engineers (SWE) Chapter President from 2016-2017, the International Council on Systems Engineering (INCOSE) President from 2017-2018, the Program Manager for the Northrop Grumman Collaboration Project (2018-2019), the Engineering Senator where she sat on the Board of Directors for Cal Poly Pomona's ASI, and volunteered for many IISE Chapter events. She competed in the Western Regional Technical Paper Competition in 2019 and advanced to Nationals. Alyssa loves sharing her knowledge and learning about new Industrial techniques and concepts. She currently works as an Industrial Engineer at the Lockheed Martin Corporation in Palmdale.
