Like you, SHS members have the quantitative and analytical techniques and expertise for improving healthcare processes. Join us today and take advantage of networking and career development with a select group of your peers.

• Meet, benchmark, and build relationships with other process improvement professionals and management engineers at the Healthcare Systems Process Improvement Conference

• Learn technical and leadership skills from an expert during free, one-hour healthcare webinars on timely topics

• Update your technical skills and credentials through healthcare training and certificate programs

• Broaden your horizons from operations to include clinical processes

• Increase the influence and prestige of healthcare improvement professionals and management engineers by working together with your colleagues

• Access SHS members worldwide through the online member directory

• Get professional healthcare resources online from the SHS Web site’s member-only content from conference proceedings, healthcare-related articles, and online tools & resources.

Are you looking for a career in healthcare? With all the changes in healthcare, now is a better time than ever to advance your career. The SHS Career Center is specific to process improvement jobs in healthcare. View the latest jobs in healthcare, ranging from management engineers, operations performance analysts to executive positions.

Are you searching for healthcare improvement professionals? Say “goodbye” to cumbersome, time-consuming searches on large job boards. The SHS Career Center focuses on process improvement jobs in healthcare specific to your need. As an employer, you can focus on people with the skills you need in management & systems engineering, analysis, and process improvement methods.

Healthcare management engineering training. As the healthcare industry strives for more efficient operations, quality customer service, and improved processes that limit costs and increase profitability, The Society for Health Systems and The Institute of Industrial Engineers have developed seminars that apply industrial engineering skills and tools in the healthcare environment.

This series of seminars focuses on two types of management engineering courses. The first provides you with the basics of the industrial engineering toolbox as applied to healthcare and introduces you to the fundamental management skills required for demanding tasks in this industry. The second shows how to apply the lean and Six Sigma toolbox within the healthcare environment.
**Membership Options**

**SHS-only: $134**

The SHS Board has long suggested that there is a market for an SHS-only membership and we are excited to offer you this option! If industrial engineering isn’t your background, this membership is for you. Access all that SHS has to offer including SHS member directory, healthcare-specific career center and online tools & resources for only $134 a year.

**Add SHS to your IIE membership for only $35**

Add IIE to your SHS membership and you’ll join 15,000 members around the world. The Institute of Industrial Engineers is a broad based association of professionals involved with improving quality and productivity. IIE collaborates with SHS to provide SHS member and Board support and makes available a broad array of services including access to training and certificate programs at member discounts.

**Joint SHS/HIMSS: $333**

Now you can take advantage of the networking and resources with your peers within SHS and IIE combined with the broad reach of HIMSS. By joining SHS and HIMSS or by joining SHS/IIE/HIMSS, you will receive member discounts on all conferences and events rather than having to choose between them. And your organization can write one check for your professional dues.

**Join SHS**

When you’re one of the few performance improvement specialists or management engineers in your organization or site, it’s even more challenging to produce results. You need to rely on a wide network of colleagues, experts, and resources outside your own organization.

The Society for Health Systems provides that.

SHS offers you the very latest and best process analytics, tools, techniques, and methodologies for performance improvement. At SHS you will network with peers and learn how to improve performance in your healthcare organization.

As we enter an era of increasing public focus on the clinical performance of our healthcare system, SHS is growing and changing to respond to your needs. You will choose from timely web and conference sessions, access a wealth of online resources, and draw on the expertise of industry leaders.

By becoming an SHS member now, you will benefit from the growing resources available to members...and you can help shape the future of our healthcare improvement profession.
