    Orlando 2018, San Juan 2019
  – AEC, Health Systems, Lean Six Sigma
  – Specialty

• Seminars
  – Public Courses
  – Corporate Training
  – Online On-Demand
  – Certificate Programs
  – Partnership with Student Chapters
  – UL Puresafety

• Webinars
Training at IISE

- IISE seminars are taught by practicing professionals who share their experiences with seminar participants. Each instructor brings years of practical business applications of the seminar topics. Courses involve numerous simulations, exercises, and projects.
Corporate Training Programs

The courses can be provided either as straight “off the shelf,” tailored to highlight the organization’s business, or customized to meet specific training needs. As part of customization courses can be built brand new or by combining elements of existing courses. IISE’s continuing education staff works with clients prior to the delivery of the course to assure that it meets the stated objectives.
Special Program for Senior Chapters

• Any existing IISE program can be taught for senior chapters
  – 30 percent discount off member rate
  – Minimum of 15 participants
  – Local chapter handles logistics
Delivery Methods

• Live
  – Onsite
  – At IIE
• Online
• Blended
